SKILLS

Front-End Web

React.js, Next.js, Angular, TypeScript, Redux, Zustand
TanStack Query, React-Hook-Form, Tailwind CSS, Framer Motion

Design System

Chakra UI, Material UI, Storybook, Atomic Design

Back-End & Data

Node.js, Nest.js, GraphQL, Firebase, Java/Spring Boot (basics)

Mobile

React Native, Expo, EAS Build, App Store Connect, Google Play
RevenueCat, Push Notifications, Supabase, SQLite, Sentry

Quality & Testing

Jest, React Testing Library, Puppeteer, Cypress

Tools & CI/CD

Git, GitLab CI, Vercel, GitHub Copilot, Figma, Postman

EXPERIENCE

Senior Front-End Developer — Web (Next.js) & Mobile (React Native)

March 2023 – Present

Client: Optisantis • Remote

Reinforced the Front-End team on platforms dedicated to employee wellbeing and health, built in parallel for Web and Mobile, deployed at large scale (~1.5M users), white-labeled for clients such as Crédit Agricole Assurances and Mercer LCL.

- Built reusable components shared across the application
- Implemented critical security features
- Improved digital accessibility (RGAA 4.1 / WCAG)
- Audited and refactored complex components
- Cross-functional collaboration (Product/Design)

Stack: React Native • React.js • Next.js • TypeScript • Chakra UI • TanStack Query • GitLab CI • Sentry

Mid-to-Senior Front-End Developer — Angular 14

June 2022 – January 2023

Client: EATON • Grenoble, France

Developed an embedded UI for remote monitoring and control of UPS devices (electronic board).

- Developed new features and improved the release process
- Code reviews and contributions to shared projects (international context)

Stack: Angular 14 • NgRx • RxJS • TypeScript • Storybook • Bitbucket

Front-End Developer — React.js

January 2021 – March 2022

Client: IBM • Grenoble, France

Developed the UI for the VPN Connections module of IBM's Cloud solution (cloud resource management).

- Designed and implemented the VPN Connections module with a strong UX focus
- Built unit and E2E tests (Jest, RTL, Puppeteer)
- Migrated legacy components and updated the project's ecosystem

Stack: React.js • TypeScript • Redux • Apollo Client • GraphQL • Jest • Puppeteer

Front-End Developer — Angular 8

June 2019 – March 2020

Client: GUERBET • Grenoble, France

Built a medical application from scratch for patient and injection protocol management.

- Implemented UI screens from provided mockups
- Built unit and automated tests to ensure reliability and compliance

Stack: Angular 8 • TypeScript • Git • Azure DevOps • Cucumber • Selenium

EDUCATION

2018 – M2 in Computer Science

UFR IM2AG, Université Grenoble Alpes, France

2017 – Master's in Information Systems and Networks

Faculté des Sciences et Techniques, Morocco

LANGUAGES

French – Native / Fluent

English – Professional
